COUNTRY CHAT FOR THE SPECTATOR.

Mt. Solon, Va., January 20th, 1890.

The action of the Supervisors at their last meeting in granting to our people the adoption of the "Hog Law" meets with almost universal approval by all classes of this community. It should be adopted all over the county. Hope the time is near at hand when cows and other stock will not be permitted to break through and steal that which does not belong to them.

The Rev. E O. Armstrong, the senior preacher in charge of Bridgewater Circuit, has been preaching very interesting and able sermons to our people. Mr. Armstrong is an able Divine and commands large congregations.

The ladies' festival was a success and added another testimonial to their skill and judgment in getting up a supper to please the appetite.
